Subject: Fw: Active pesticides on the IRIS database with links to REDs
Attachments: list of pesticides to link 08-21-08.xls

Kevin,

There are currently over 100 values on IRIS that have old IRIS values and also provide a link to more recent updated values from OPP. We began providing the link to Registration Eligibility Decision's (REDs) a few years ago at OPP's request. See Karen's attachment below.

Subject: Active pesticides on the IRIS database with links to REDs

As a follow up to our discussion at the round table on the request to Paul Anastas to clarify the recommended tox value for active pesticides, here is the list of active pesticides and the links to the REDs that were placed on the IRIS database a couple years ago.
